Underframe for table top

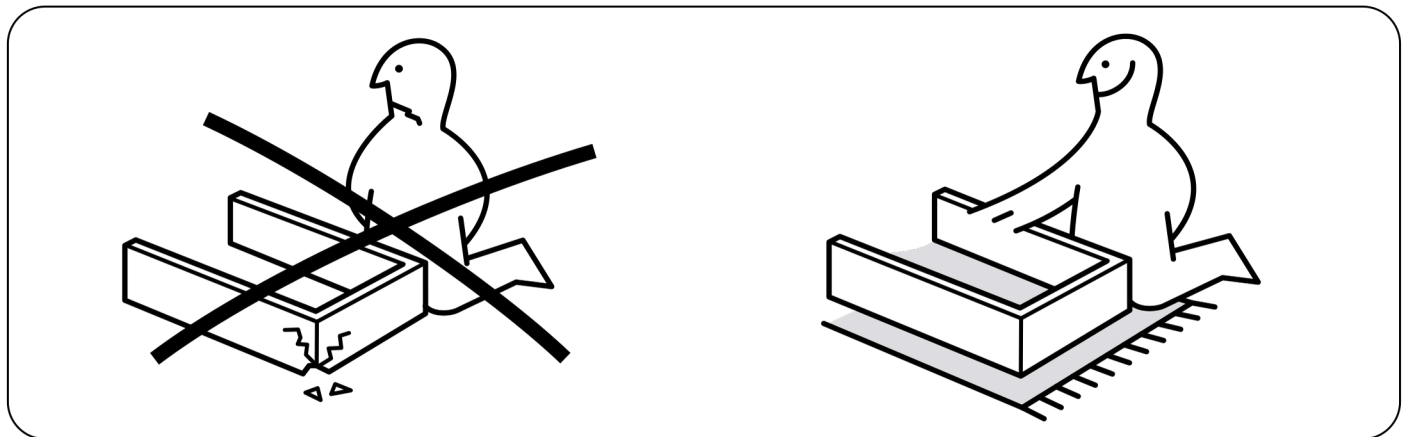

Design and Quality
IKEA of Sweden

In order to setup this table you will need the following tools.

To make installation process easier and faster, we recommend that two people work together to install the bed frames.

⚠ Safety Precautions: Assemble on a flat surface. Avoid overtightening screws. Assemble on a flat surface. Avoid overtightening screws.

Accessories List

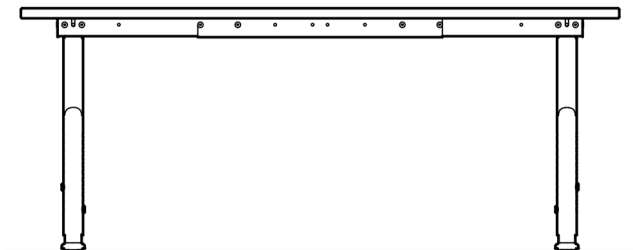

A x 16  100181	B x 4  130769	C x 5  149697
D x 8  104875	E x 4  157979	FX 1  124345
G x 6  130886	H x 6  130884	I x 4  111032

1

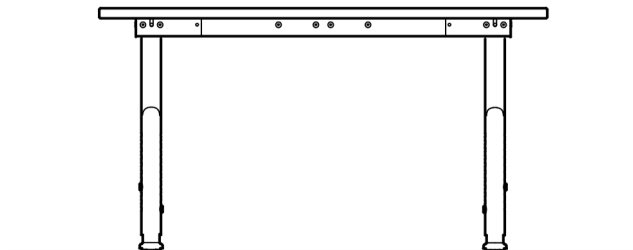

Place the metal brackets on a flat surface. Arrange them carefully so that each bracket is perfectly lined up with the others, one after another, to ensure proper alignment during assembly.

160 x 80 cm
(63 x 31 ½")

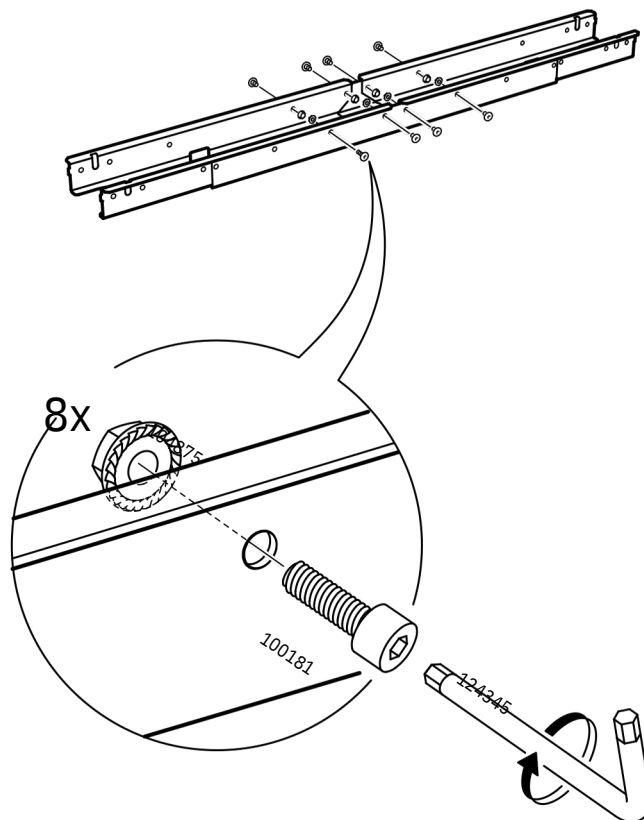

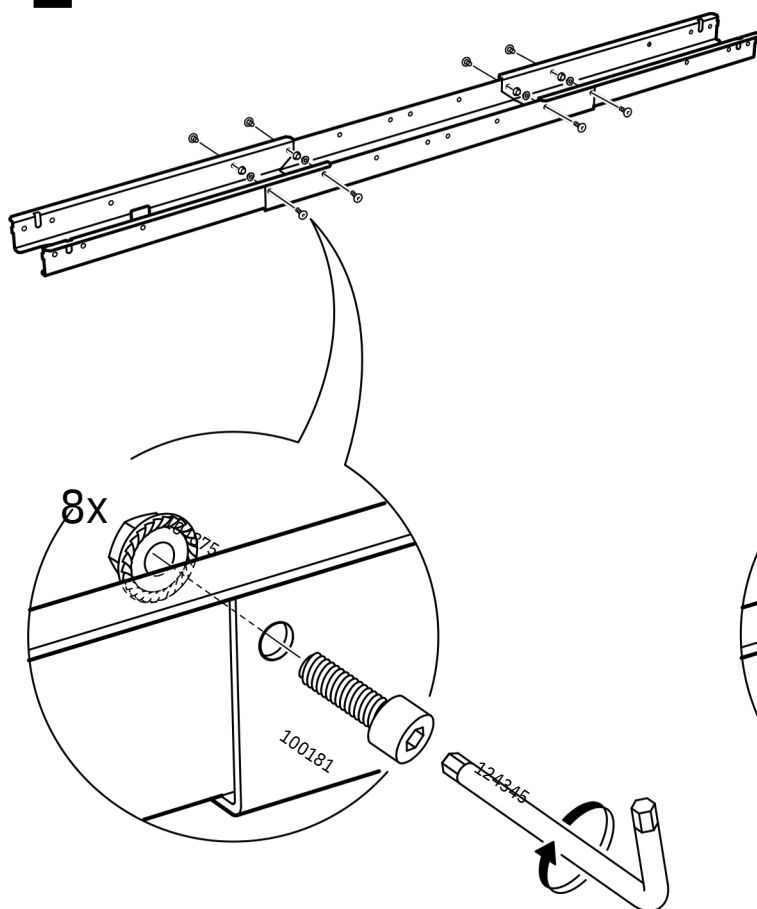

2

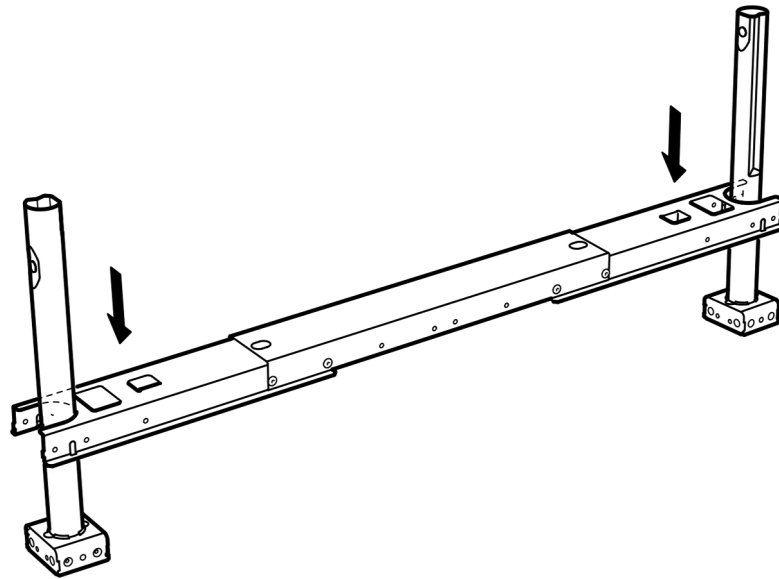

120x70 cm
(47 ¼ x 27 ½")

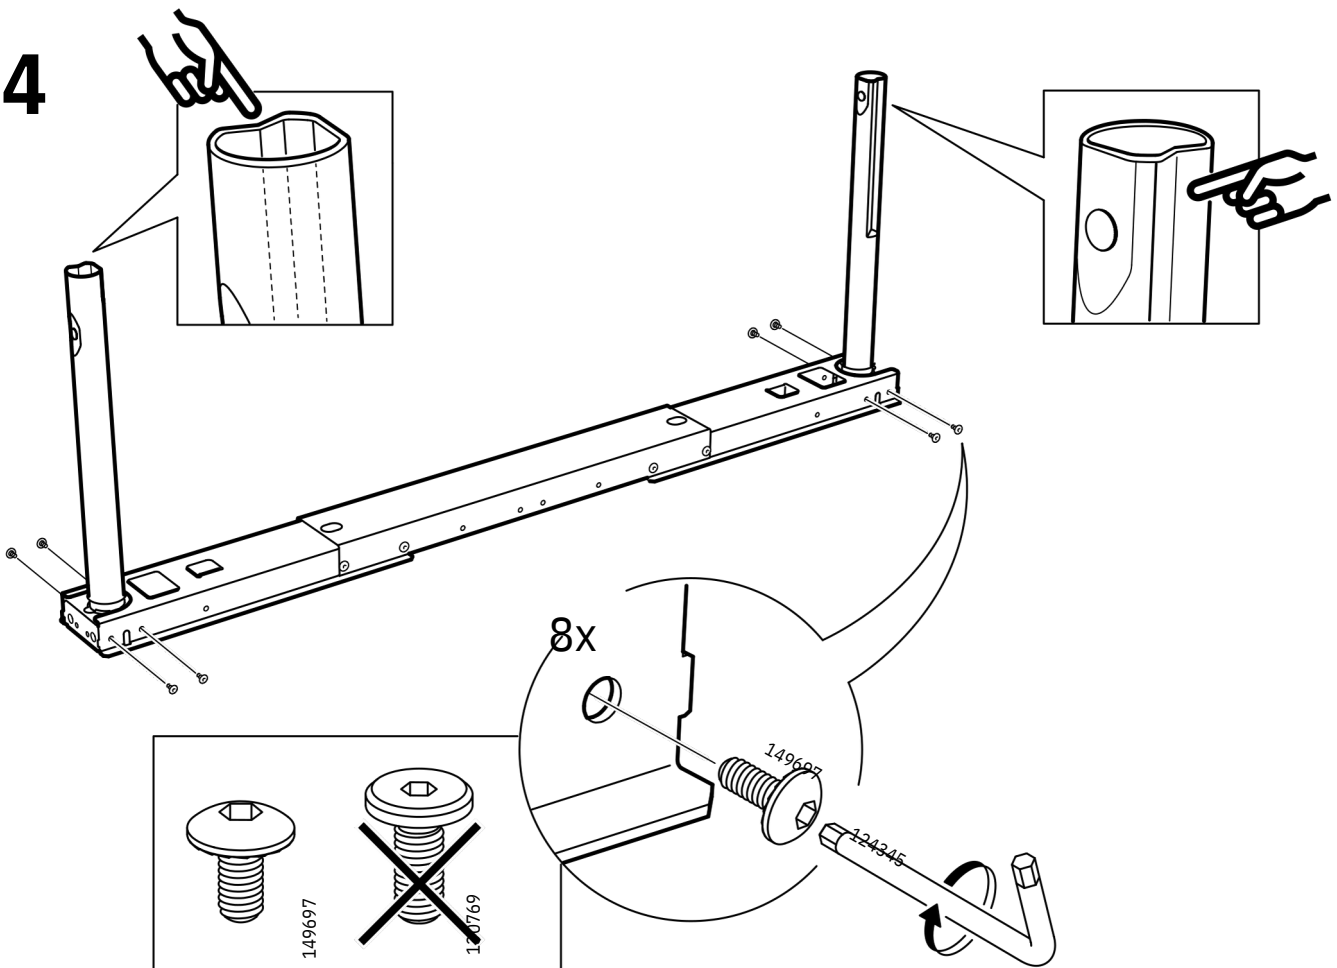

2

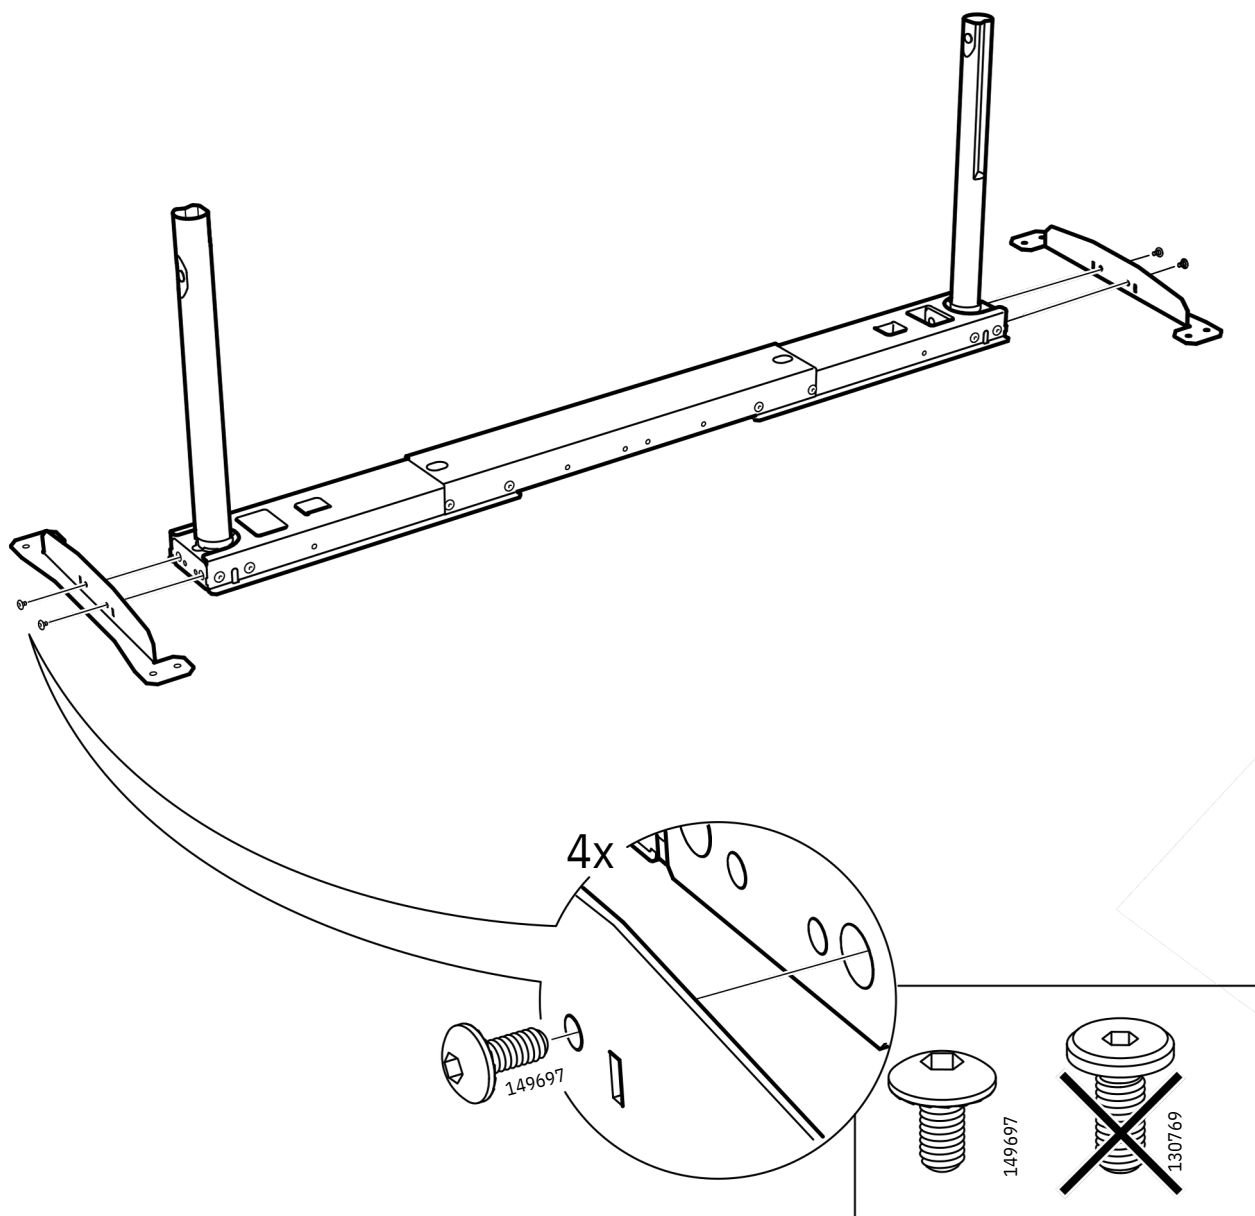

Using Bolt D and Screw A, attach the table components together. Use Allen Wrench F to securely tighten them, ensuring all parts are firmly connected.

4

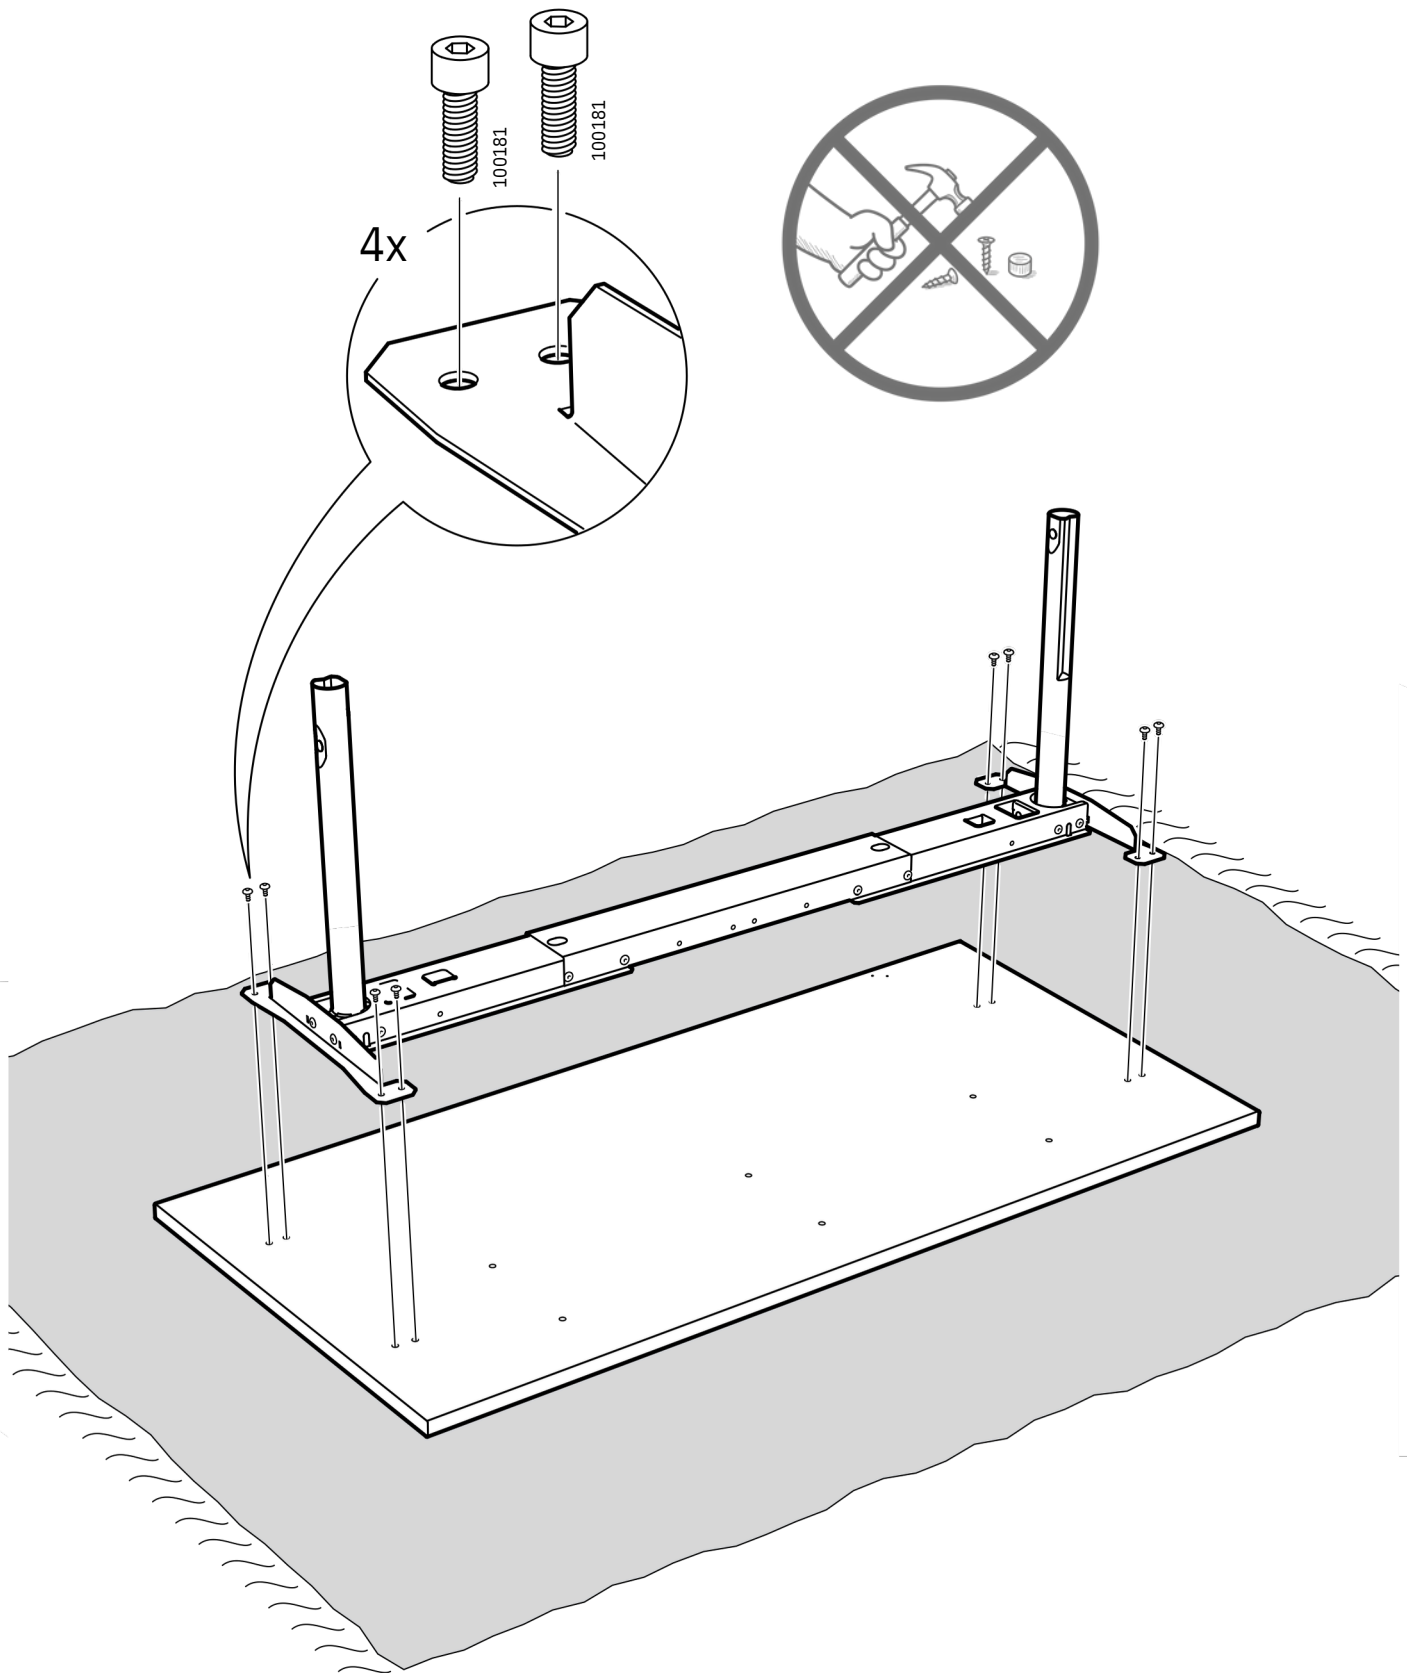

5

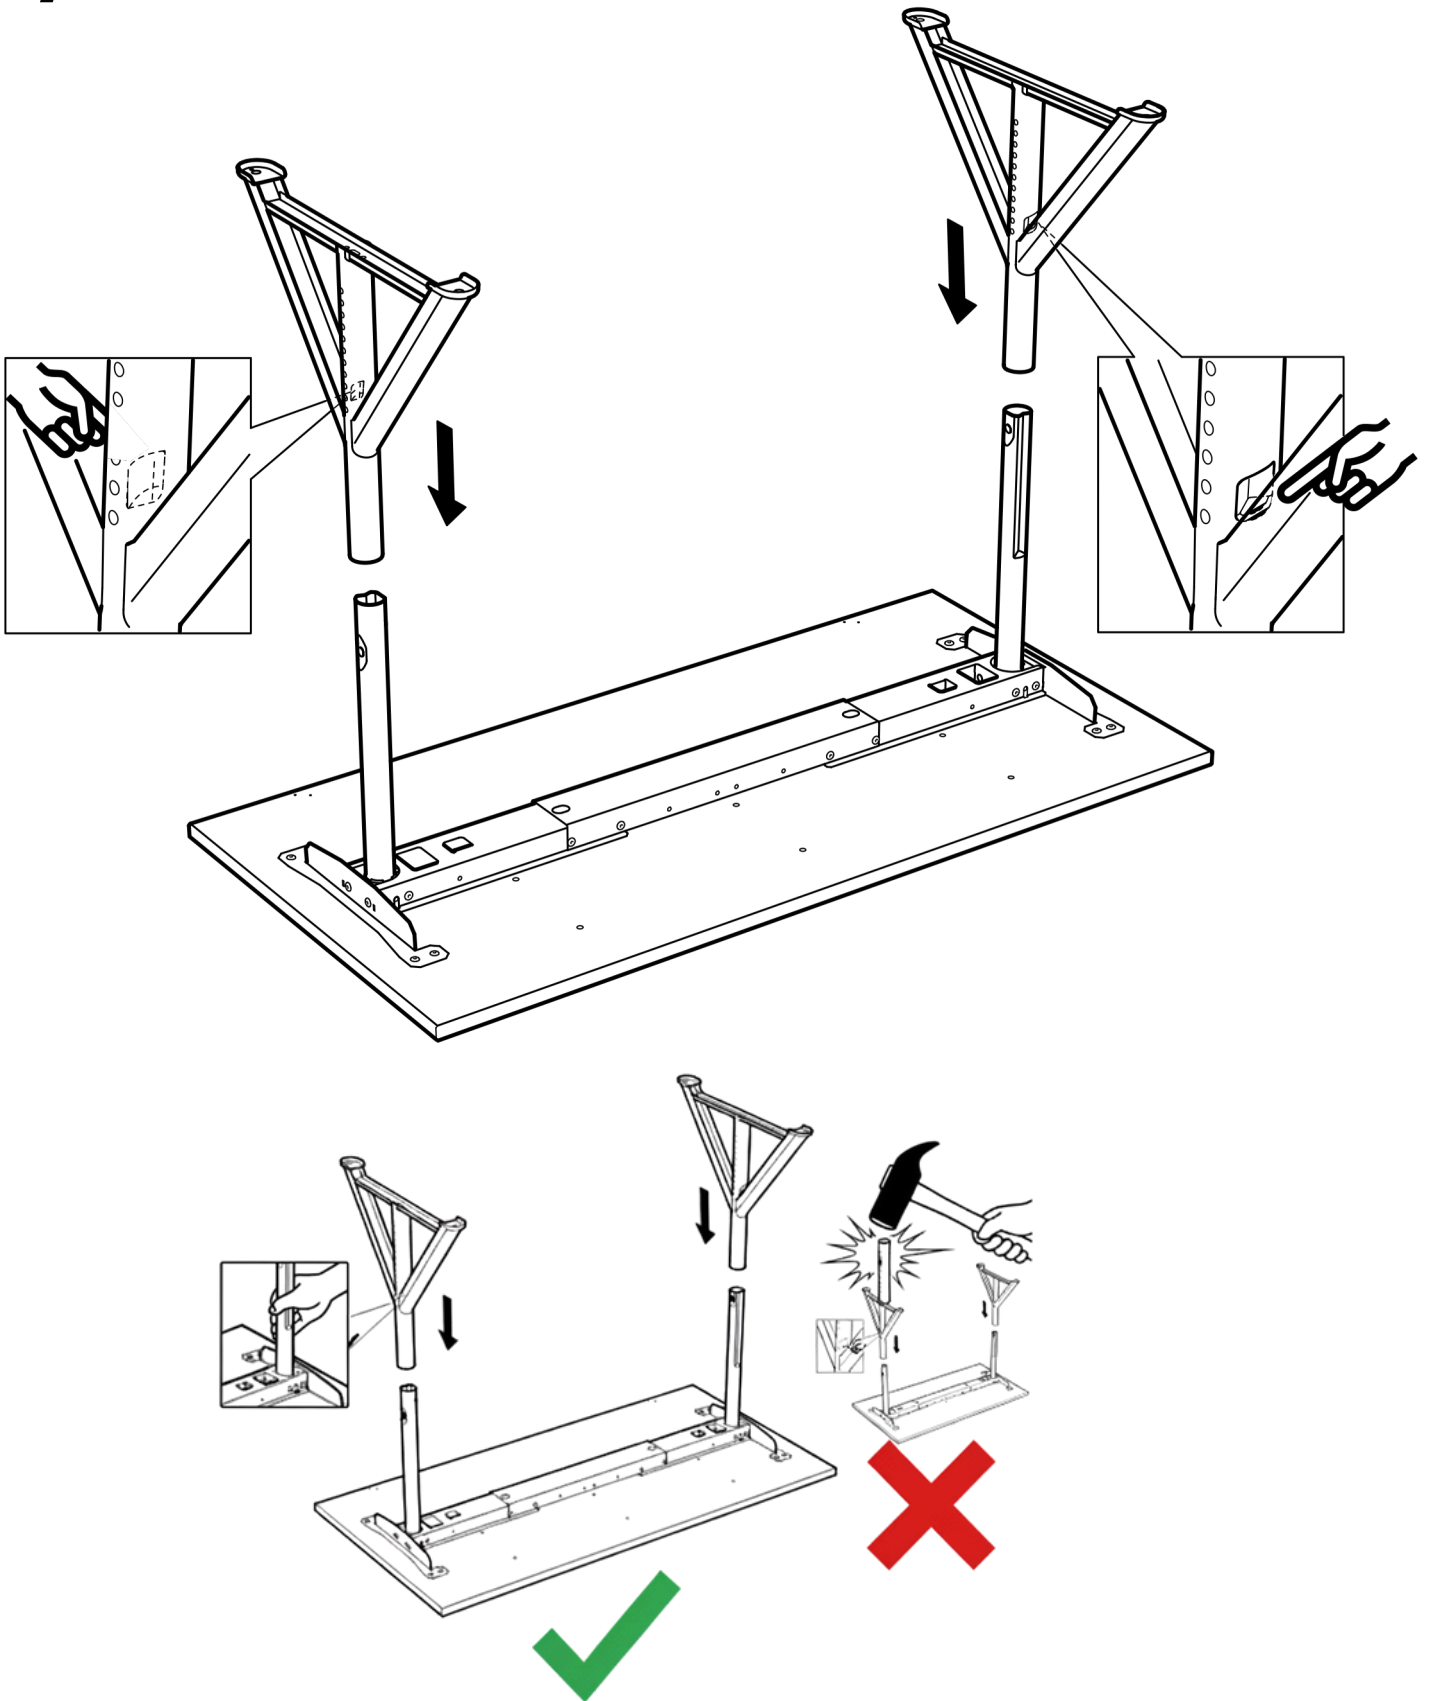

Place the sway control block on both ends of the crossbar and secure each with Screw C. Take care not to use Screw B, as both screws look very similar.

6

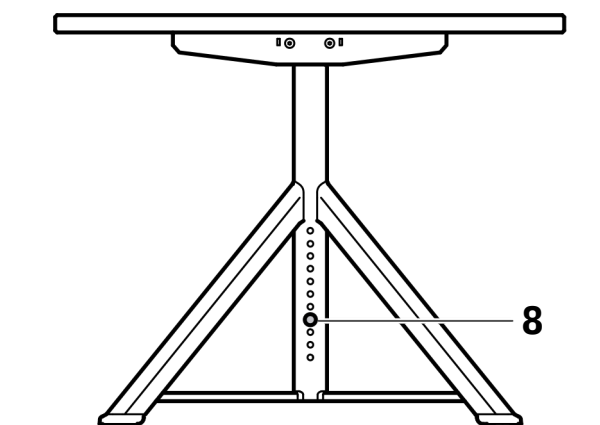

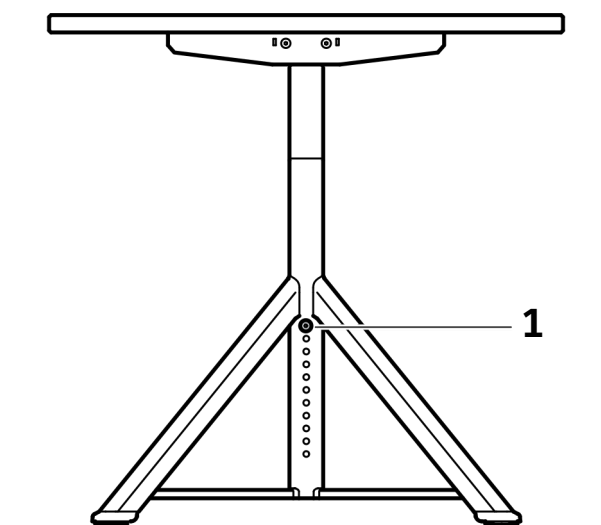

Place the table top upside down on a flat surface. Position the assembled frame on top, aligning it carefully with the screw holes in the sway control blocks. Secure the frame using Screw A, tightening each screw firmly for a stable and even fit.

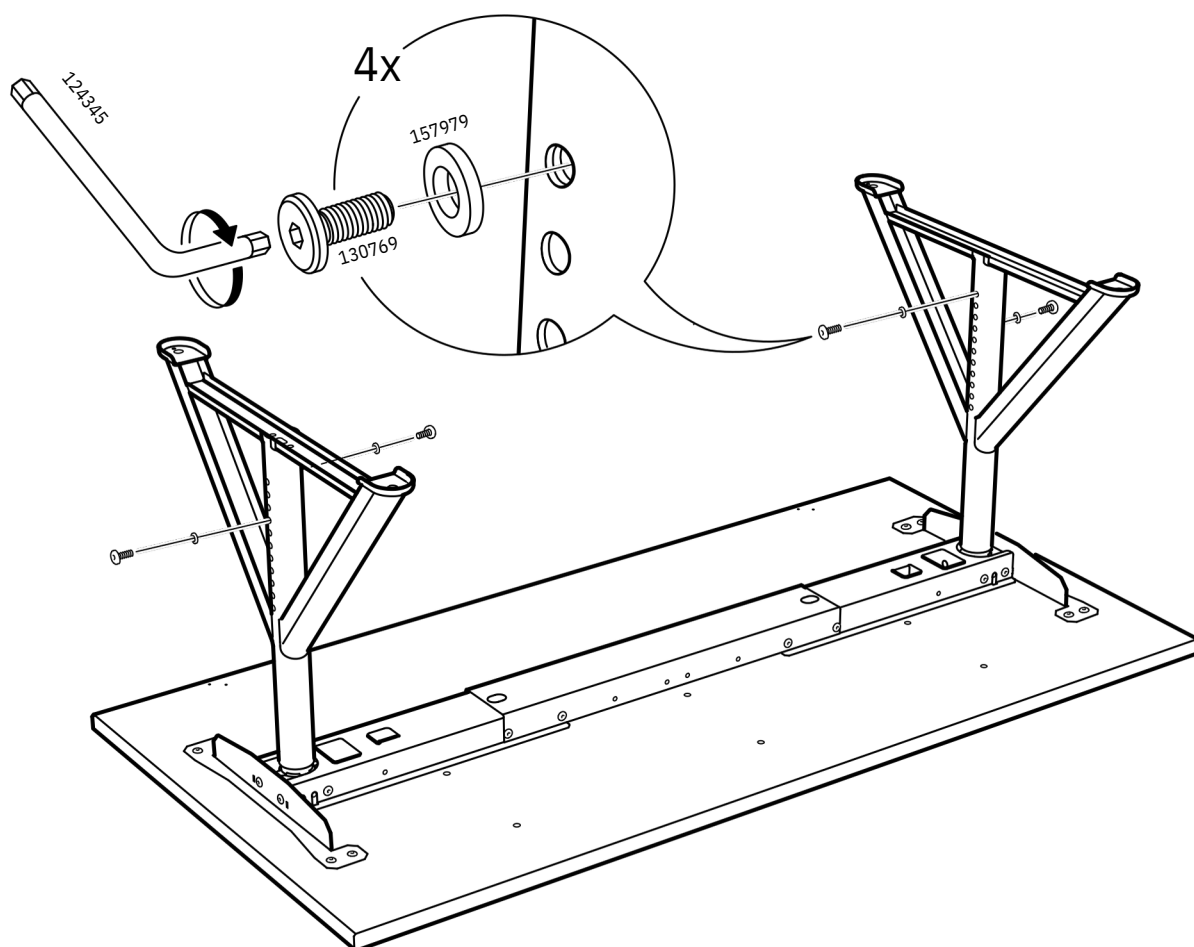

7

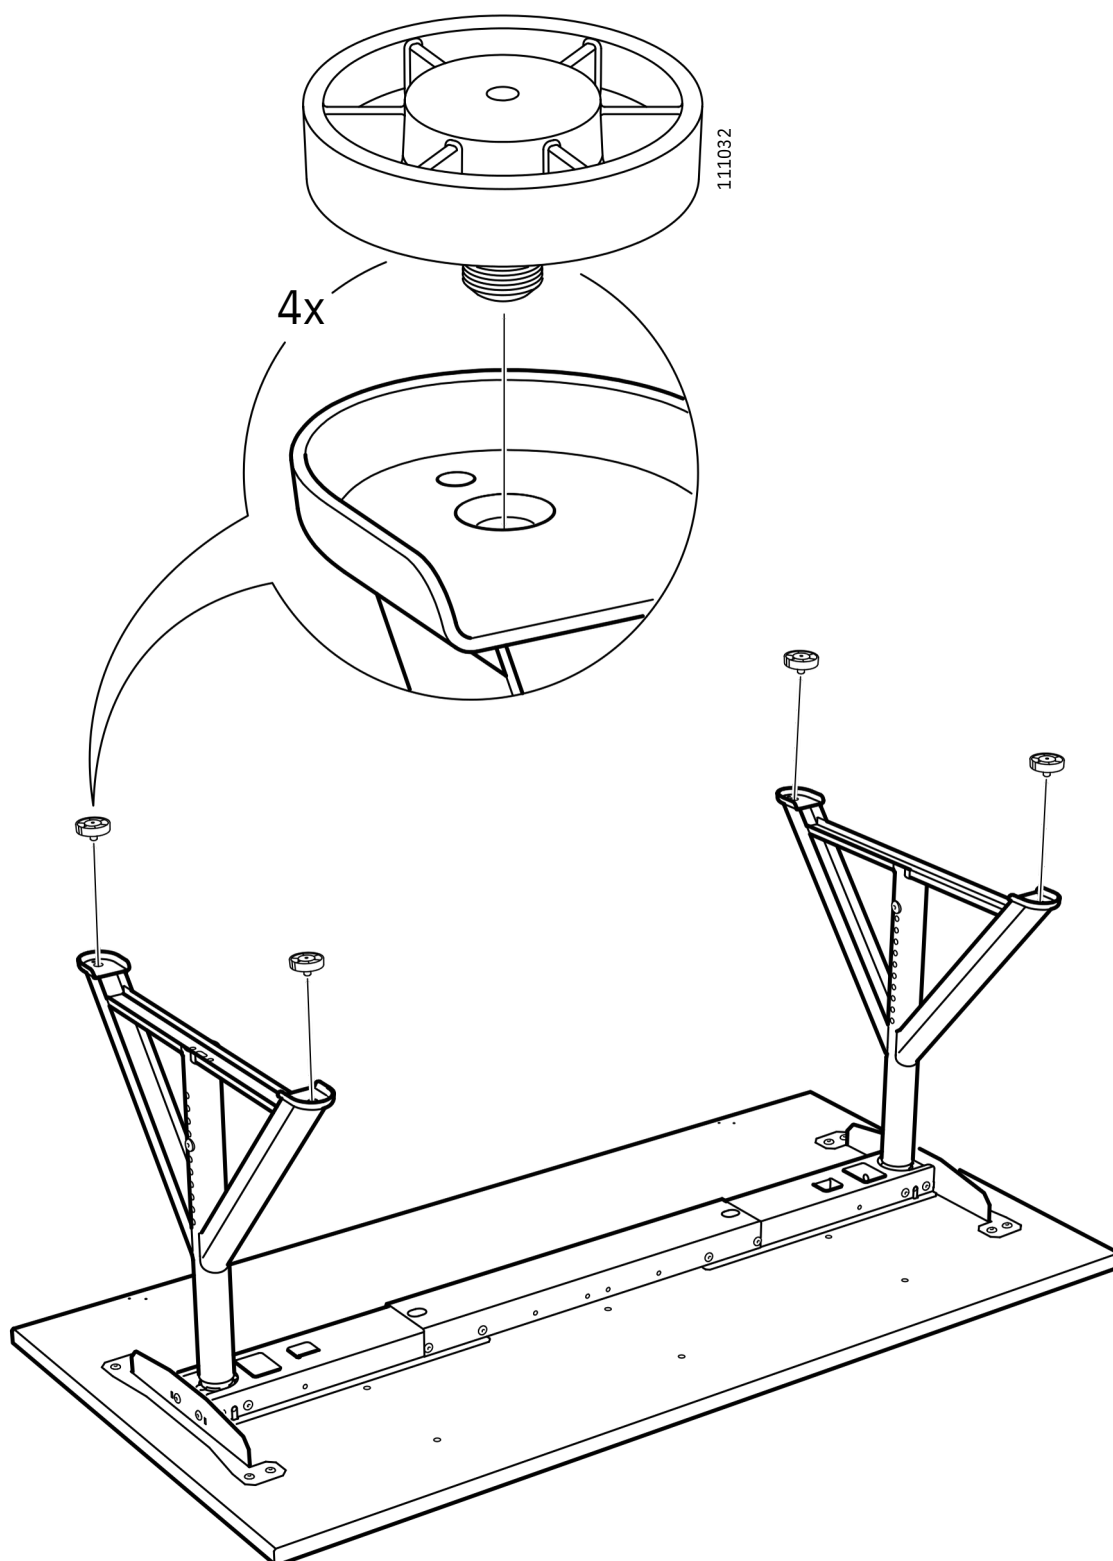

Connect the table stand to the desk legs, aligning it exactly as shown in the figure above.

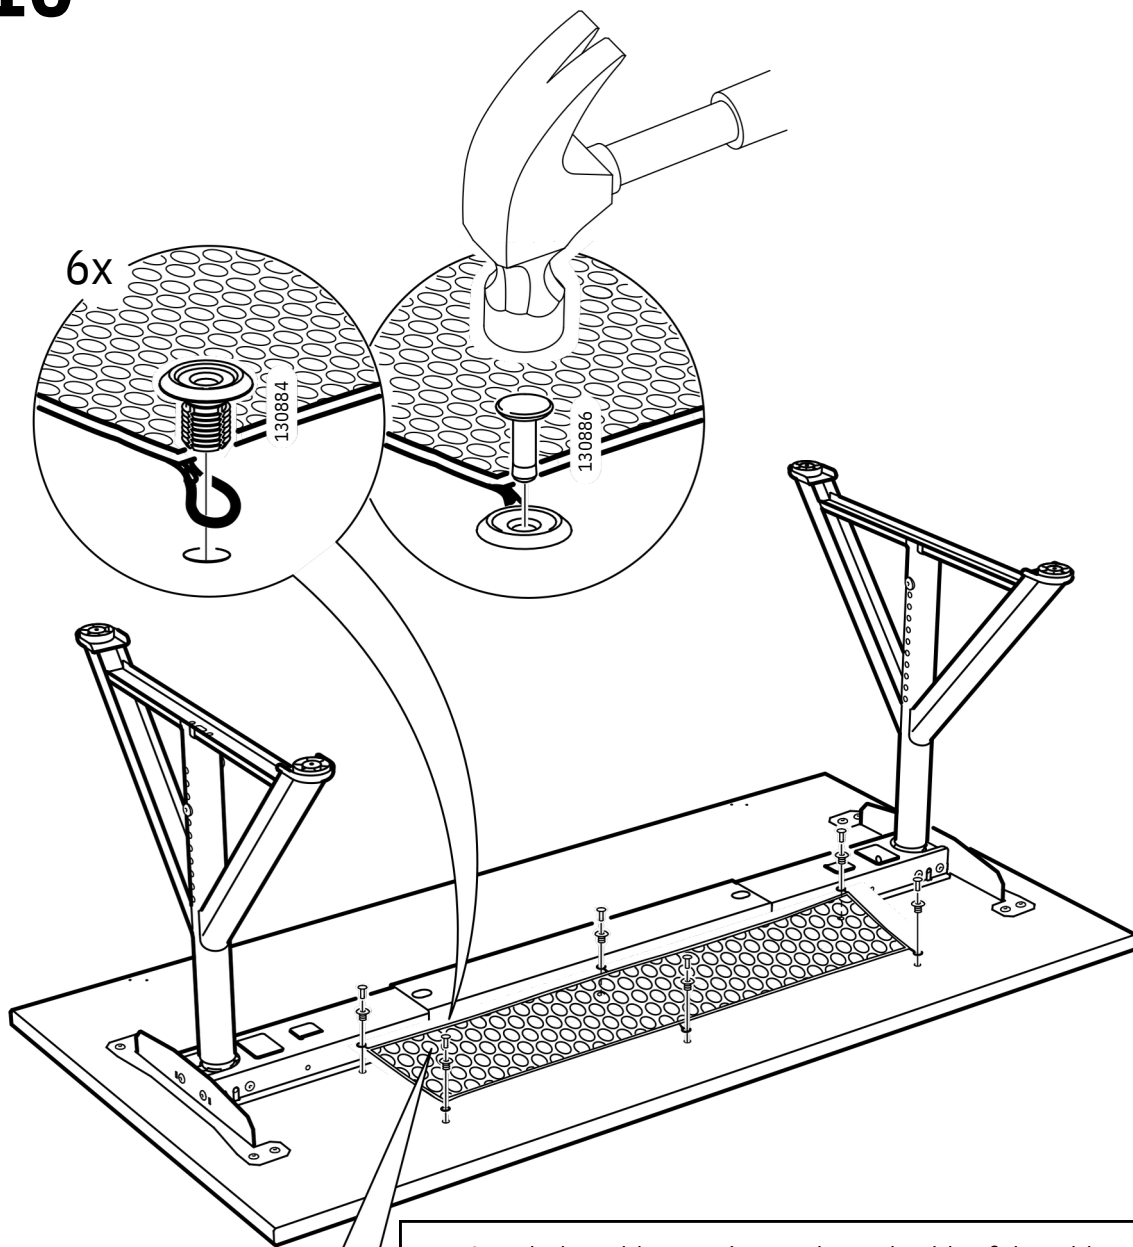

8

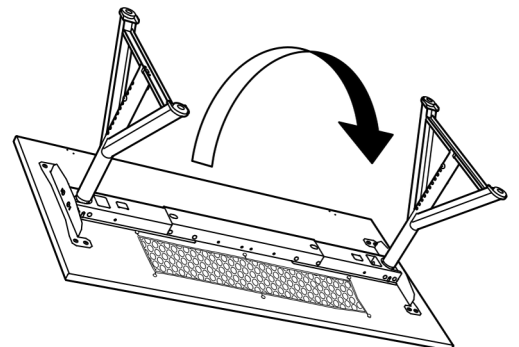

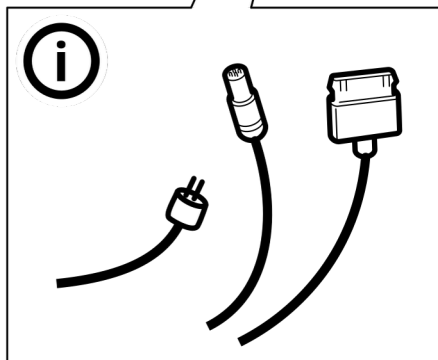

Secure the table stand to the desk legs using Screw B and Washer E. Tighten them firmly to ensure a stable and secure connection.

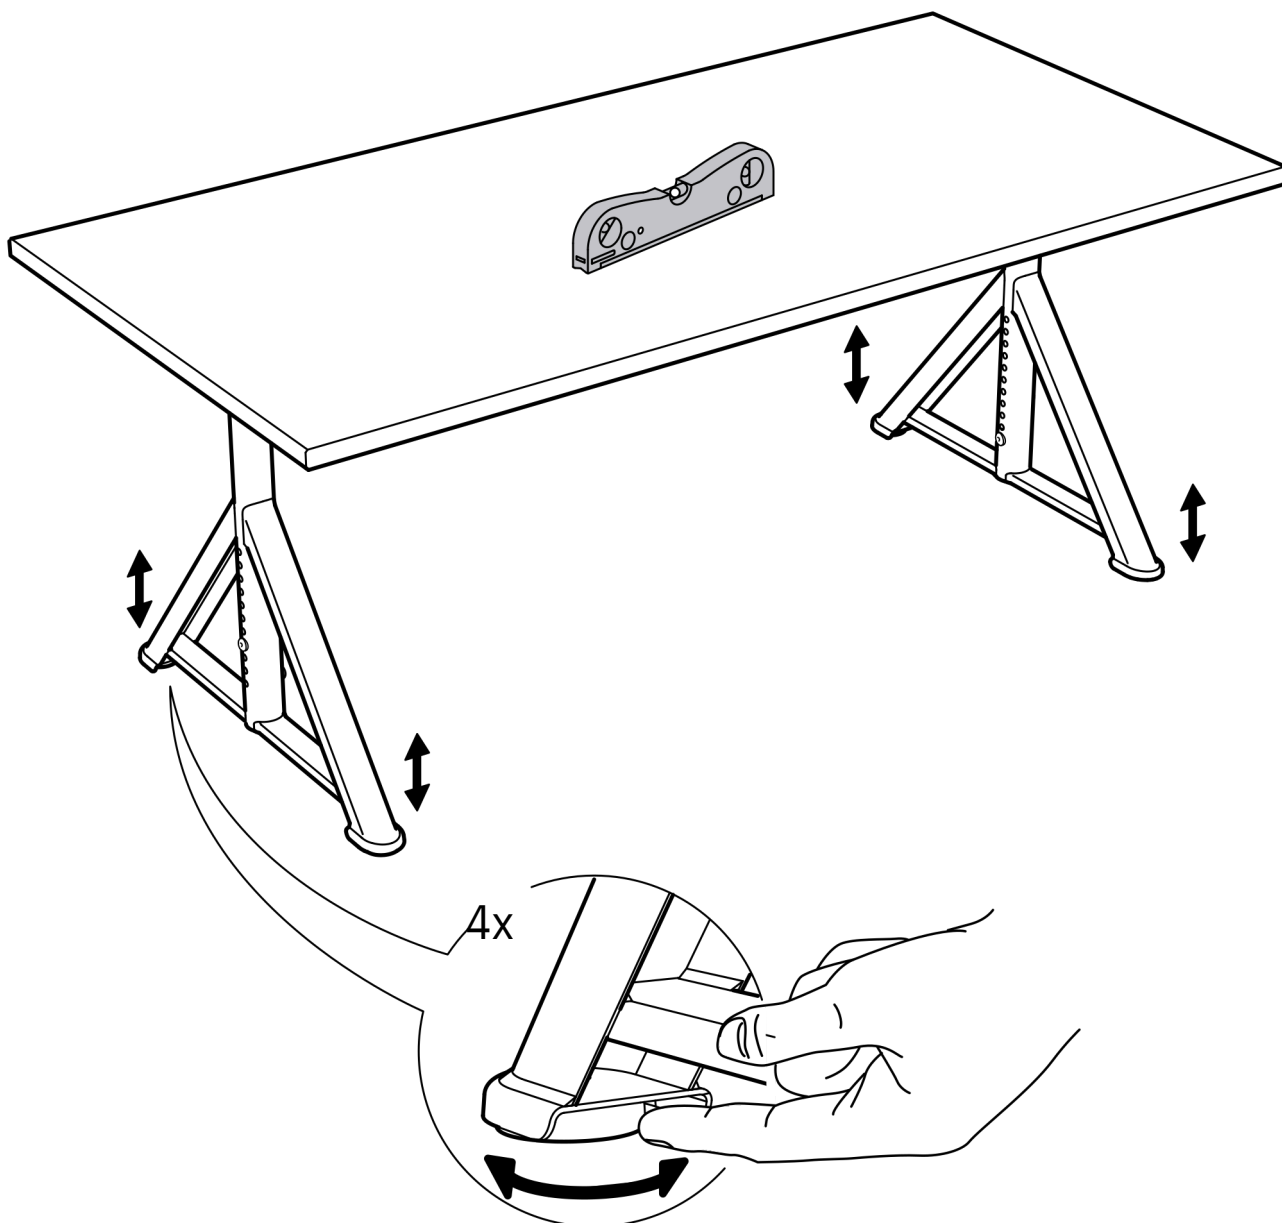

Screw the adjustable feet into all four corners of the table. Ensure each foot is securely attached and can be rotated to adjust the table's level.

Attach the cable organizer to the underside of the table top. Secure it by screwing in the expanding plug and tapping the pin gently with a hammer.

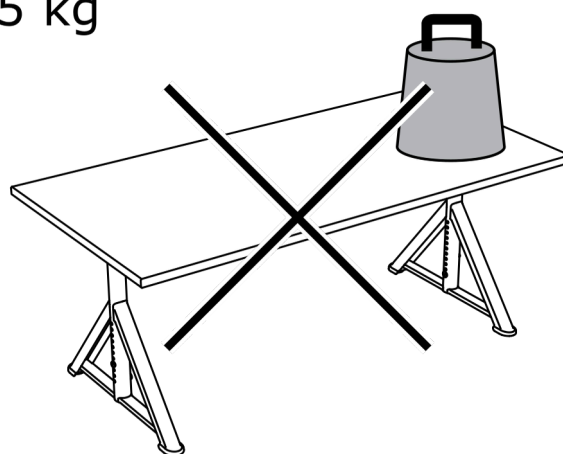

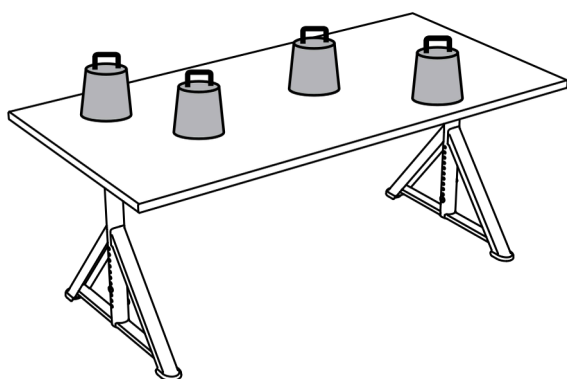

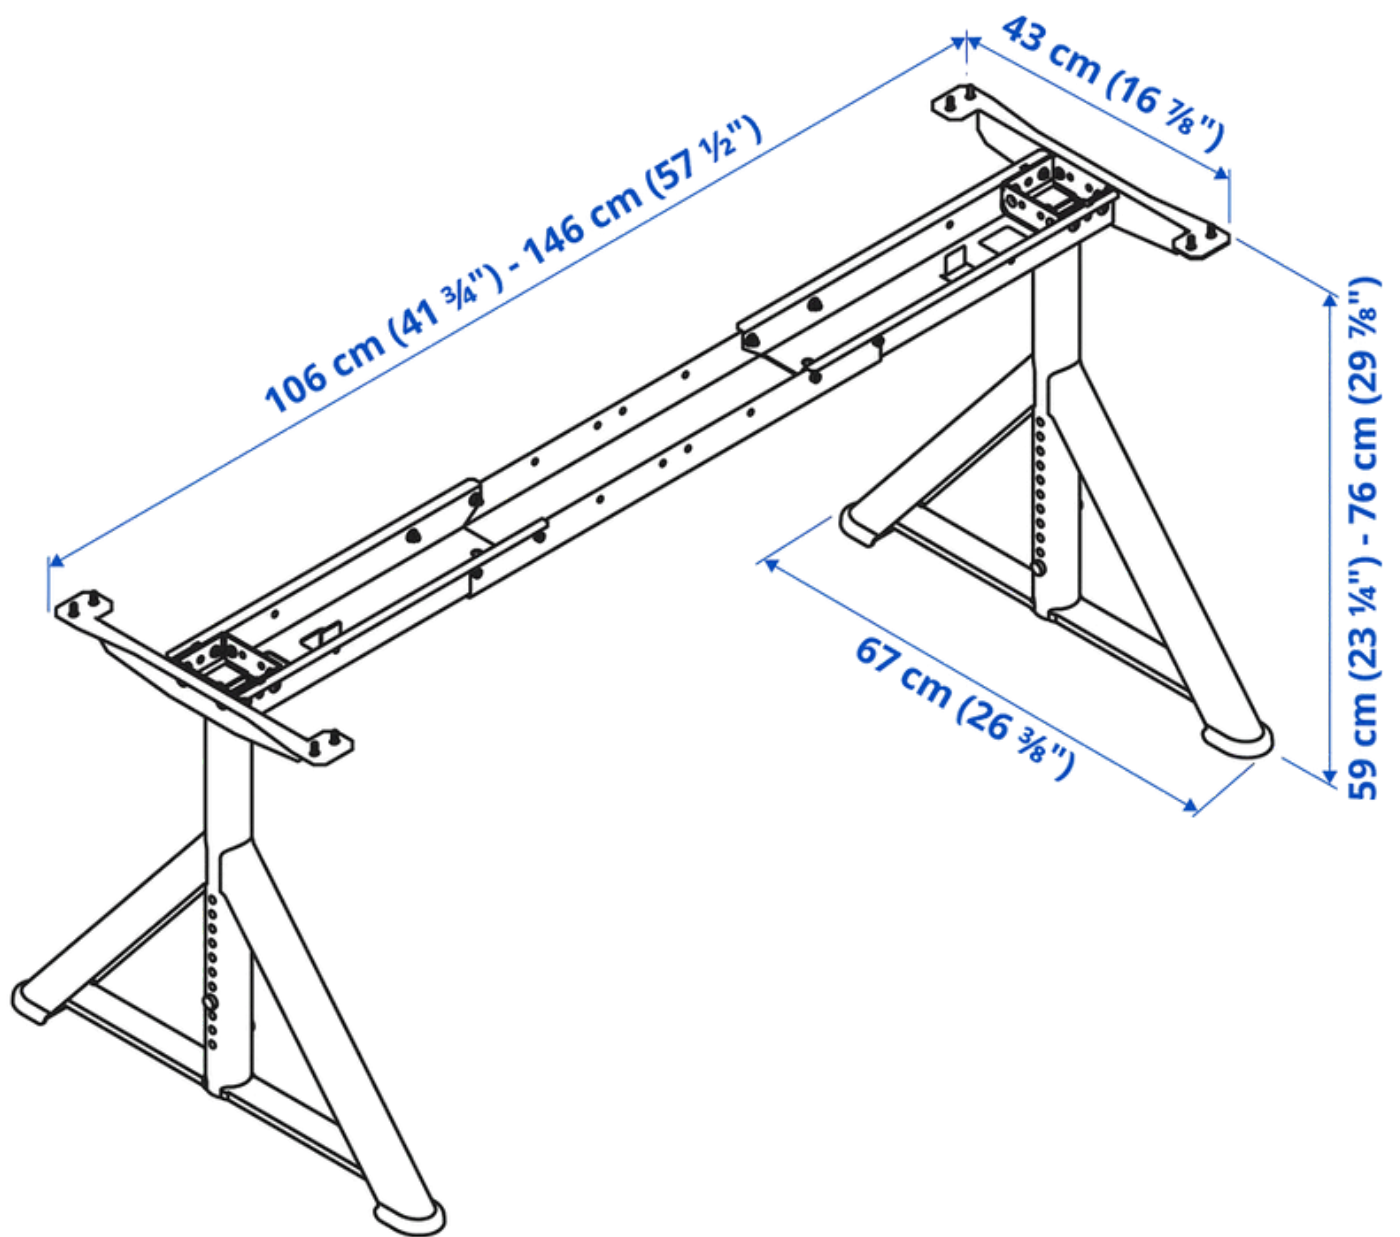

Carefully flip the table onto a smooth surface. Use a spirit level to check the table top, and adjust the feet as needed to ensure it is perfectly level.

max 75 kg

Warning: Maximum load 75 kg. Exceeding this limit may result in damage to the table or risk of injury.
